

Ken Sturdy, Vice Chair of the Constellation Trust (TCT)

Ken is Managing Director of office technology business IT@Spectrum. He grew up in East Hull and began his career in the eighties as a service technician, progressing through service management into sales and general management.

Having being appointed as a Director of IT@Spectrum in 2000, he led a Management Buy Out in 2003, and now heads up a team of 50 staff operating throughout Yorkshire and Lincolnshire. Ken has applied a logical, process driven approach to structuring and growing a customer focussed, sales led business, achieving ISO 9001 and Investor in People accreditation along the way. He believes that if people and teams know clearly what they are required to do, believe that it's right, are able to do it and ultimately want to do it, then spectacular results can be achieved.

Ken joined the Board of Sirius Academy Multi Academy Trust in 2015, and in addition to this role he sits on the board of the Hull & East Yorkshire branch of the Institute of Directors, and is actively involved in local business groups: For Entrepreneurs Only and Hull Bondholders.
